

SOHUM

LIVING SOILS

Our hand-crafted & naturally pH-balanced potting mix provides your operation the optimal nutrient delivery system.

JUST ADD WATER

YOUR COMPLETE SOLUTION FROM SEED TO HARVEST

LET'S GROW TOGETHER

After years of research and development, SoHum Living Soils™ is proud to bring the grow community the potting mix that we have all dreamt about. Our commitment to a hand-crafted, natural, biodiverse potting mix ensures that you maximize your plant's genetic potential while reducing labor, time, and eliminating costly nutrient supplements. Our mix helps your plants flourish through their entire life cycle while providing a full buffet for even the heaviest of feeders.

FAQ

Seriously, all I need to do is add water?

We know this seems impossible, but yes, just add water. Our mix is jam packed with everything your plant needs to reach its full potential.

Will this work for various kinds of crops?

Yes, our diverse ingredients provide for a full spectrum of fruiting plants.

Do I need to flush the plant?

No, SoHum is designed to provide your plants essential nutrients through their entire life cycle. Simply place trays under your pots to keep the ecosystem alive.

Can I sprout seeds or place clones in SoHum?

Yes, SoHum was crafted for the complete lifecycle of your plant without burning your starters.

I am not an experienced grower, do I need anything else to make this work?

We have taken all the work out of growing plants by pre-amending SoHum with all the macro and micro nutrients your plants need. Seriously, just add water.
